

## Role: 3D Artist

Location: Stirling, Scotland

Term: Full-time

### About Rivet Games

Rivet Games was setup by veterans of Dovetail Games in 2019, and currently has a staff of 18 that produce top quality content for a variety of video games. Our add-on packs for the Train Simulator games released include some of the highest rated content ever produced for Train Simulator.

### Role overview

We are looking for a passionate 3D Artist with a good technical mind-set and skill-level. The role requires someone with an eye for creating quality 3D environment assets for train simulator games.

### Responsibilities

- Create optimised game-ready assets for both legacy and UE4 game engines on PC and Console.
  - Optimal low polygon meshes.
  - Assets created to the correct proportion and scale from reference images and brief.
  - Ability to create optimal UV layouts and textures.
- Monitor your timescales and tasks, highlighting any blockers/delays in your work.
- Assist with reviews and bug fixing of 3d assets.

### What we are looking for

- An interest in game development with a passion for recreating real world environments.
- Technical ability to research and understand the reference material to extract relevant data.
- Proficient in at least one 3d modelling package such as 3DS Max, Blender or Maya.
- Competent in Substance Suite and Photoshop.
- Interest in trains and simulation games.
- Knowledge of Unreal 4 would be a significant advantage.
- Excellent PC tools knowledge.
- Must be self-motivated, good communication skills and able to work effectively in a team environment.

### Rivet Games benefits

- 26 days holiday + 8 days statutory holiday
- Pension scheme
- Eye-care vouchers
- Free parking
- Regular social and sporting activities
